

Technical Specifications	
Model	JZ-PP Series
Micron Ratings	1, 5, 10, 20, 50, 100 μm (nominal)
Lengths	10" (250mm), 20" (500mm), 30" (750mm), 40" (1000mm)
Outer Diameter	2.5" (63mm) standard; 4.5" (115mm) Big Blue available
Inner Diameter	1.1" (28mm) standard
Material	100% Virgin Polypropylene (PP) microfiber
Max Temperature (°C)	80°C (continuous PP); up to 120°C on request
Core Material	PP / Stainless Steel (optional)

KEY FEATURES

- Graded Density Structure — Outer to inner pore gradient for high dirt holding
- 100% Virgin PP — No binders, no adhesives, FDA-grade material
- High Dirt Holding Capacity — Up to 500g per 20" element
- Chemical Compatibility — Resistant to acids, alkalis, and organic solvents
- Low Pressure Drop — Energy efficient operation
- Multiple Lengths & OD — 10-40 inch, standard and Big Blue sizes

Certification	-
Warranty	N/A
