

Technical Specifications	
Model	JZ-PES Series
Micron Ratings	0.22/0.45 µm (PES membrane); also 1, 5, 10, 20 µm
Lengths	10", 20", 30", 40"
Max Temperature (°C)	80°C continuous (PP); up to 120°C (PES membrane)

KEY FEATURES

- Large Filtration Area — Up to 5x more surface area than depth filters
- Low Pressure Drop — Energy efficient even at high flow rates
- Washable & Reusable — PP and polyester media can be cleaned
- Multiple Media Options — PP, polyester, PES membrane
- High Temperature Rating — Up to 80°C continuous (PP) or 120°C (PES)
- Absolute Ratings Available — 99.98% efficiency at rated micron

Certification	-
Warranty	N/A
