

Technical Specifications	
Model	JZ-RO-8040
Membrane Type	Thin-Film Composite (TFC) Polyamide
Permeate Flow Rate	1.0-1.5 m³/h per element
Stabilized Salt Rejection	99.5% (nominal) / 99.0% (min)
Max Operating Pressure	600 psi (4.1 MPa)
pH Range	2-11

KEY FEATURES

- High Flow Capacity — 1.0-1.5 m³/h per element
- Salt Rejection — 99.5% nominal
- Industrial Size — 8.0" x 40" for large systems
- Large Membrane Area — 365 ft² active area
- High Feed Tolerance — Up to 75 GPM feed flow
- Proven Reliability — Standard in industrial RO systems

Certification	-
Warranty	N/A
