

Technical Specifications	
Model	JZ-WS Series
Micron Ratings	1, 5, 10, 20, 50, 100 μm
Lengths	10", 20", 30", 40"
Core Material	PP / SS304 / SS316

KEY FEATURES

- Depth Filtration — Continuous winding creates graded density for high dirt holding
- Multiple Fiber Options — PP, cotton, nylon for different chemical compatibility
- Wide Micron Range — 1μm to 100μm nominal ratings
- High Strength — Continuous winding withstands high differential pressure
- Customizable Core — PP or stainless steel core options

Certification	-
Warranty	N/A
